PROJECTS

Codebeetles-Blog
Live Link | GitHub

- **Description:** Developed a real-time blogging platform where users can log in, read, like, and publish blogs. Integrated Appwrite for authentication and real-time data management. Used TinyMCE as the text editor for blog creation and Appwrite storage buckets for managing media assets.
- **Technologies Used:** React.js, Tailwind CSS, Redux, Appwrite, React Hook Form, TinyMCE, Vercel
- **Achievements:** Implemented service-based backend logic to avoid vendor lock-in. Continuously working on enhancing features and optimizing the codebase.

WORK EXPERIENCE

Frontend Web Developer (Fresher)

Currently expanding expertise in backend development while building innovative frontend applications.
