PROFILE

Motivated Full-Stack Developer skilled in React.js, Tailwind CSS, PHP, MySQL, Appwrite, and Supabase. Experienced with Express.js, MongoDB, WebSockets, and Socket.io. Enthusiast of GenAI apps, RAG systems, and AI agents using LangChain.js. Passionate about building scalable, high-performance web applications.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Omdayal Group of Institutions, Howrah, West Bengal

2022 – 2025

- **Average Score: 70%**

Diploma in Computer Science and Technology

Siliguri Government Polytechnic, Siliguri, West Bengal

2019 – 2022

- **Overall CGPA: 8.3 (with Distinction)**
-

WORK EXPERIENCE

Frontend Web Developer (Fresher)

Currently expanding expertise in backend development while building innovative frontend applications.

LANGUAGES

- **Bengali:** Native
- **Hindi:** Fluent
- **English:** Proficient

TECHNOLOGIES

- **Languages & Libraries:** React, Nodejs, Expressjs, Socket io, Langchain js, PHP, Javascript, Tailwind CSS, HTML, CSS
 - **Databases & Backend Services :** MongoDB, MySQL, Appwrite, Supabase, Langflow
 - **Cloud:** Render, Vercel, Netlify
 - **Version Control:** Git, Github
-

PROJECTS

Codebeetles-Blog

[Live Link](#) | [GitHub](#)

An **AI-powered** real-time blogging platform with **Appwrite authentication**, **real-time data management**, and **AI blog suggestions** inside the TinyMCE editor. Supports **Appwrite storage** for media management.

Technologies Used: React.js, Tailwind CSS, Redux, Appwrite, React Hook Form, TinyMCE, Vercel, Groq SDK, LLaMA-3.3-70B-Versatile

Achievements: Designed a **service-based backend architecture** to avoid vendor lock-in. Continuously improving features and optimizing the codebase.

FAQ-Assistant

[Live Link](#) | [GitHub](#)

An interactive **RAG-based FAQ system** that provides dynamic responses instead of traditional static FAQ sections.

Technologies Used: Langflow, Render, React, Express, Node.js, AstraDB, Mistral AI, LLaMA-3.3-70B-Versatile, Groq SDK, Hugging Face (BAAI/bge-base-en-v1.5), Recursive Text Splitter

Achievements: Deepened my understanding of **RAG systems** and paved the way for building **AI agents**.

MCDM(Multi Criteria Decision Making)

[Live Link](#) | [GitHub](#)

A web app implementing the **TOPSIS** method, allowing users to upload CSV files with multiple alternatives, set custom weights, and generate rankings for data-driven decision-making.

Technologies Used: React, Tailwindss, multer, xlsx, express, chartjs

Achievements: Improved decision-making automation with **TOPSIS**, enabled dynamic weighting for flexible rankings, and enhanced data visualization using Chart.js.
